LAMINATE FLOORING

Molding Profile

T-Mold

94.5" x 1.85"

T-molding is used to transition from one floor to another when both are at the same finished height.

Reducer

94.5" x 1.85"

A teardrop shaped molding used around fireplaces, doorways, as a room divider, or as a transition between wood flooring and adjacent floor coverings that are less thick.

End Cap

94.5" x 1.85"

A threshold provides a visual and mechanical transition between one type of floor and another.

Stair Nose

94.5" x 2.17"

Stair nose is used to trim out the edges of the step-downs and staircase covered by laminate or wood flooring.
